Subject: Andrew French referred me

Sent: November 16, 2008

Ms. Patel:

Andrew French, one of my instructors at the Alberta Technology Institute, suggested I contact you. I'm in my final year of engineering technology, focusing on production logging technology.

I've learned about Coreco's innovations in this area from your website and from articles about your company in industry publications.

I'm intrigued by Coreco's technology and would greatly appreciate seeing it in action. I'm hoping you would be able to assist me in arranging this.

Thank you very much for considering my request.

Joe Dunn
