What do floor covering installers do?
Floor covering installers put in new floor coverings. For example, carpet or vinyl flooring. Floor covering installers also repair and replace floor coverings. They work in homes and businesses.

Meet a floor covering installer
Jay is a floor covering installer. He installs floor coverings in homes and office buildings.

Here are things that Jay does:
• He gets the floor ready for the floor covering. The floor must be clean and smooth.
• He figures out the material that he will need.
• He measures the room. Then he measures the floor covering. Then he cuts it.

• He uses glue for vinyl flooring and some carpet.
• He repairs damage. He puts in new pieces of floor covering.
• He covers stairs with carpet.
What is Jay’s work like?
Jay works indoors. He works 5 days a week. He usually works from 9 a.m. to 5 p.m. Sometimes he has to work extra hours. He sometimes works alone.

Jay has to stand, bend and kneel a lot. He sometimes wears knee pads.

Jay lifts and moves floor coverings and equipment. These things may weigh over 20 kilograms (over 45 pounds).

Jay uses sharp tools. He has to be careful. He doesn’t want to cut himself.

Jay also uses strong glue. He needs to wear a face mask.
